Dear Miss Turbell.

On my return from Jacksonville this week, I wrote my Socialistic friend Mr Sharp of Canal Point, - saying it would be possible, you would reach there soon, desirous of meeting him, & etc - Today I received the enclosed telegram.

I shall be delayed in leaving here for the north, and it is quite possible I will be here all of next week. So should your plans permit - will be glad to carry out the original plan. Otherwise you can communicate by air or letter with my son W. B. Priestley here - who will be glad to serve
