

November 24, 1922

Mr. P. M. Neilson,
The Coit-Neilson Lyceum Bureau,
Pittsburgh, Pa.

My dear Mr. Neilson:

I have just returned from a long Lincoln pilgrimage and find your letter of October 3 with the list of lecture dates as you understand them.

We have not spoken of subjects. Do you think your people generally would take to a lecture on "The Making of Abraham Lincoln"? That is what I am going to give at Buffalo. I hope it is what they will accept at Wilmington and Williamsport as well as at Newark. Will you approach them on this subject?

I am also going to talk this coming winter on "Possible Contributions of Women to a Higher Civilization." I would like to confine myself to these two subjects. Do you think that your audiences will be agreeable?

My third subject will be, if it is preferred, "Industrial Unrest" with particular attention to the unemployment problem.

Will you kindly take this matter up with your dates?

Sincerely yours,
