Dear Madam:

I am sending herein the October issue of the National Negro Voice which contains an article under the caption: Ida M. Tarbell Includes Etc. for your observation and to show you that the men and women of our race who believe in merit and co-operation as between the blacks and whites of this country, are always glad to show appreciation to white people who are willing to give recognition to our people when it is due them.

I would have sent the paper earlier, but had some difficulty in obtaining your address.

Wishing for you every success and hoping that you will always be courageous enough to give recognition where it is deserved, I am

Yours very gratefully,

R.A. Flynn
