My dear Madam,

No doubt you will be taken quite by surprise to get this letter from the writer, but I want help and woman help, and I know you can furnish me the information desired. You can see from my note head I am a poultryman and I have just purchased a farm in or near Salisbury Maryland and will locate there on or about the 1st of March - I need two young women to help me - as I find I cannot depend on men help and I want to make this offer - I can furnish a good home plenty to eat and comfortable clothing for the first year - for two young women who have tried the "Great White Way" and lost out - I want these young women to be sure they want country life and who are

To lead a better life or try to. If you
 know of some Lady Protection Officer
 of New York Philadelphia or Baltimore
 who can place me right I can
 offer a good home, light work &
 a fine neighborhood. There are
 four families in calling distance
 of my home to be, my wife will
 assist me in taking care of the
 young women, we are members
 of the Episcopal Church and my
 wife has and is now organist for
 the church here for twenty years
 I can furnish the best of references
 and the officer can visit me
 after the 10th of March and see
 for himself & herself You can
 answer this letter to me at the
 address below. Thanking you for
 the information Hoping some day to
 be of benefit to you - I am madam
 your very truly
