

July 17 1936.

Warrant Ida's -

I wish I knew some
one living that could tell
you more - but as far as
I know all are dead -

Am glad Will is
better - wish he were well
& strong!

I think it fine Sade
wants to stay in her own home.

Miss Johnson is going
maker. The dear woman - she
has niece & nephew - that love her
& would come to see her - but
Mr. Straker & Dr. & the head nurse
think it wise not to come - ^{whom they} ~~it~~
excited her & ^{she} did not know
them - to keep her quiet is best.
This is best place for her - as she
has given her money here - & I
know she receives better treatment
here, than at an Asylum -

I am the only one they
let in to see her - she does not
know my name but smiles & always
jabs my face - it is four weeks
since, no firm Mr. Straker & I
stays together & has never
been out of her room since
not able. Two years last of month
month since - she was taken

Anna McKinley was sister
of William McKinley Jr. - his
mother & family moved to
Poland -

Page 4 - In answer to your
other letter - "The Stamping Co"
did not make the tin plate -
they bought the tin plate (made
in Wales) & made all kinds
of tin ware.

Page 5 The brother in law
was Andrew J. Duncan. not
Saxton (father never had
any business with Saxton.) -
Andrew J. Duncan married
Sarah McKinley -

Page 6. The books that I kept
& had room at the Stamping
works) for the McKinleys
& father - those were the
books & papers taken -

Perhaps I did not
make it clear when I wrote
you - The whole business

was so awful - I almost
hate the name McKinley -
Abner succeeded in getting
father into telegraph business
in New York - I always thought
he spent the money father
gamble here - Jay his own living
expenses in New York -

I father had never
had anything to do with McKinley
or Frank Osborn - a nephew
of McKinley - father would
never have had the business
trouble -

Also I could not have
made it clear in regard to
the state - I thought you had
been to the fact & know what
they did -

To the Hospital, Mr Lamfers then
now - 2 did Cady, I mean in
same condition - 40 in the Hospital,
mainly old age + not able to
take care of themselves -

Whom you can
come to see me -

Love to your family -

My love to
My Darling

Clara [Walker]

P.S.

The books of Staupig Co
were destroyed afterwards;
but I do not know who
did that - I never saw
them - I never returned
to Staupig Co - after the
next morning -
