

OPERATING DEPARTMENT
AMERICAN STEEL & WIRE COMPANY
WORCESTER, MASS.

October 30, 1928.

Refer to: AGW:MWA.

Miss Ida M. Tarbell,
120 East 19th Street,
New York, N.Y.

My dear Miss Tarbell:

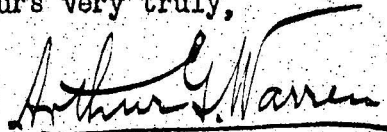

INDUSTRIAL MUSEUM PHOTOGRAPHS - SET NO. 22

Only this morning I received your letter dated the 26th and am forwarding by insured parcel post, packed in a box, the Industrial Museum photographs requested, - Set No. 22, books 1 and 2.

For your further information in respect to barbed wire, I am also sending in the box a reprint of an article ^{first} ~~just~~ published in The Iron Age containing the essential facts regarding the origin and early history of barbed wire.

This was written to correct a widespread misapprehension which otherwise would have come to be accepted as authentic history concerning an important branch of the wire industry.

Yours very truly,

Sec'y, Industrial Museum Committee,

AMERICAN STEEL & WIRE COMPANY.
