

St. Paul, Minn., Mar. 1, 1922.

Mr. S. A. Bridges,
Atlanta, Ga.

Dear Mr. Bridges:-

I have a letter from Doctor Taylor of Birmingham, saying that she has received an old list of my subjects. I am speaking this winter only on the unemployment situation (I am a member of the Standing Committee of The President's Unemployment Conference of which Mr. Hoover, is the Secretary, and on The Washington Conference on the Limitation of Armament) I spent two months watching that conference.

I have written Doctor Taylor, but I am afraid from what they tell me that they will have difficulty in the present condition of things in Birmingham, in getting an audience for a serious talk, I feel very dubious about the wisdom of going into your territory under the present circumstances, though, of course, I will fill the engagements if you think it best.

Very sincerely yours,
