

August 24, 1925

Mr. Harold Phelps Stokes  
Assistant to Mr. Hoover  
Department of Commerce,  
Washington, D.C.

My dear Mr. Stokes:

You will remember that some time ago Mr. Hoover told me that he was willing that I should examine the correspondence which the Department had with the steel interests in regard to the twelve-hour day. You wrote me that when I was ready for these papers you would see that they were sent me. I should like them now, if you please. I will give them a prompt examination and return them to the Department as soon as that is finished.

Thanking you in advance for your courtesy in the matter,  
believe me

Very sincerely yours
