

Handling of men ^{co-operators}
 His tasks must be done by 2
 with him. He must get from
 each for the great undulating
 mass was in time.

Take the leaders who had
 entered nomination - Second
 Chase

Take the 2nd - Frequent
 leaders with great following.

1. The cause must have
 their points - also the faith
 of the public in them must
 not be disturbed. If he found
 them lacking in ability in
 him - in fairness. Let
 the public believe that
 he must not weaken the
 cause by shaking faith

 opposed their hands
 1 Second - made for authority -
 take S. with it for granted
 he were to be leader. I held
 him by the - deferred to him
 - I had had all the ex-
 perience 2 years - the better
 man - would use him to
 the full - but in less than
 4 weeks S. put in, making
 a proposition for directly
 the mind of country from
 danger of war once seen
 by facing a war with Eu-
 rope - I refused to do it
 with - nothing more than
 as a policy - more desirable
 as a individually could

Seward 121*

have been suggested. Chances
 of having destroyed in minds
 of Cabinet - Congress, the country
 the notion that S was in
 fact - Part - L only in fact.
 But S. was an asset - to
 make the intended character
 of the man would have
 rendered useless - ~~attempted~~
 made it impossible for
 him to get out of S. He
 really great services that
 he was capable of giving - He
 chose to serve the country
 rather than to enlarge his
 own prestige. He gave firmly
 & purely put his friends
 under - I kept his worth
 seen - Great statesman

Handy of man 3

First demonstration of his of the
 large ^{low} intelligence - ~~the~~ freedom
~~just for~~ I see specimens
 of proposal - also that he
 could not be damaged by
 an assiduous reputation -
 as a lesser man might have
 been - also divided of jealousy
 First of a series of firms of
 kind dealing with his
 confidential - opportunity of
 state made seen made plain
 his devoted colleague & put
 an end to indignity against
 L. all they never a part the
 member of Cabinet - He had
 Seward's face & seemed to
 by all well

 viction - what I do about slavery

 in not - afraid - quote - 111-112
 lesser men - 2 means - in
 Samuel - in any - so long as
 a shadow remains for slavery
 they could contribute to
 suppressed them - saved them
 from the result of their
 own weaknesses of fear
 great saying - show his philosophy

about - using men.

honest - statesmanship is the
 employment - of individual mean-
 ness for the public good

how he seemed good with
 support -

N.Y. Van Hook

 Hail - men - Keeping silent -

 Had his horse if he will
 go in victories.

Did he see that he did not -
 see - almost - meaning sense
 of what - other men were
 thinking - doing -

Act first -
 understood he - I must say -
 weakness & sleep - as a
 measure of action & as a popular
 idyl. Smiling to deny
 any fault in right - needed
 more - faith & enthusiasm -
 he had correspondence with me
 during accusative & sleep
 the impossibility of answering
 head of army - at night
 this correspondence should
 be - Ora - Pateil

 reckless -

Incapacity - as well as political
 abilities - trying to justify
 the general -
 L. came off best -

Comment - authorative value
 of deep content & patience

8.

Simplicity & dignity of
 man - knew quite & loved
 his humanity - considera-
 tion for men - praise to
 them - by men he was
 able to do it - a lovely
 naturalness - but the
 may be dominated the best
 & summed up in spirit
~~with~~ infamiliarity with
 formal & official etiquette
 outward dress - not
 seen -
 hardly see another side -
 never impressed by grandeur
 or little - a little

9.

never anything but natural -
 - come in 2 later a bit -
 guess many has smelled
 to eat - an imitation just
 heavily & easily to the
 arrangement of new comers -
 can't seem broken in - low
 power just then -

Schuy Amineut
 Hays

Adams & the not seeds
 I. comes off best line for me why
 is it called that a man's
 powers of observation can be so
 dulled by not seeing that they
 as not recognize intellectual & moral
 power - dangerous machine

varied experiences with men
 & their measurers & time -
 Dalton did not destroy faith
 in them - because a few of
 a group failed he had to
 read & informed a new of
 mankind to dismiss the
 race - Impudent - at -
moment - Humiliated by oil
 scandal - There was distinct
 democratic inclination about me
 the night - say "this is your
 product" & lighty Mr. Leary
 in head. But it is a
 continuing belief - & that
 it is not one sweep policy -
 the usual condemnation
 now - may man be secured

even mobility - I kept faith
 in a dual future &
 great but his conception
 of the ruin - its meaning
 of future yet =
 Part of me - I was ideal -
 the shrinking of the faith
 the loss of a sense of its stability
 beauty essentialness -
 sense - something that
 must go on - is part of
 the nature of things - in
 the future - can't be
 overwhelmed - stopped -
 killed -
 So I. felt none & more about

Union -

Must not feel - that
we were with him not -
to end slavery but
men must - He found
himself in his election
would to fight a new
enemy - not altogether
an unexpected one -
but a new one.

The flexibility & training
of his intellect - shows
itself in his immediate
grasp of the people's
difficulties - grasping

in public life - to see when
the issue / charges & a new
demands first attention
happened now - may be -
misled - Let - them go -
L. saw him something
more important - it must
have - present - only
things for the - could
never be the slavery be
ended - kill it & you
extended life of slavery
Let us to slavery
