

TAYLOR SOCIETY

AN INTERNATIONAL SOCIETY TO PROMOTE THE SCIENCE
AND THE ART OF ADMINISTRATION AND OF MANAGEMENT

29 WEST 39TH STREET
NEW YORK

February 1, 1932

Dear Miss Tarbell:

Dr. Person has asked me to write and tell you he has been expecting a call from you in regard to the magazine articles which you have in mind and will be glad to see you at your convenience.

In regard to the Naumkeag Experiment, the writer has been (up to Jan 15th) engaged as "technician" in that experiment and has, of course, most of the material related to it and will be delighted to help in any way - if you are still interested in that subject.

I am employed by the Taylor Society for a short time and can be reached here at any time.

Very truly yours,

Francis E. Wall

Associate Secretary

Miss Ida M. Tarbell
