Estero Lee Co. Fla. Feb 7th 1912

My Dear Miss Tarbell

"Making a Man of herself" has just been carefully read — in its first part. I know she not heard you through.

You are too great a woman from a scholastic standpoint not to give me a feeling of humility in addressing you. To me you are really wonderful. An impressive Scant define makes me wonder if you are not ripening

for a public service greater than
any you have yet rendered.

Could you become receptive -
to knowledge for my possession, just
because - the Almighty chooses the
"weak things" for His ordinary instrumen
talities & destined in their use to
revolutionize the world, You would
have something worthy the glorious
use exercise of your greatest gifts,
and high calling. I don't know
how to communicate with you,
but if you receive this little
note expressive of my desire to
send you a little book, (called
"the Immortal Manhood,") you I know
will graciously advise me where to send it.

We are in the dawn of the new
"Aquarian age" in which a genuine
Science of True religion, ie Scientific
religion is destined to triumph.
And the Kingdoms of this world
become the Kingdom of the Lord,
whose joint heirs become "the sons
of God" ie Virgins - Vir-gene - Man-Woman
-Divine beings of the Order of Melchizedek

like Jehovah - each being will have the perfect marriage of perfect Masculinity & Femininity in one divinely beautiful form. Till - this fruit of universal life is manifest "the Whole Creation groaneth & travaileth in pain" - "waiting for the redemption of the body" that once was, and shall be again, the first fruits of the regeneration of the God race. The Suffragettes will not understand or thank you for your good work. - They are only partially awaked to "the signs of the times". The science of the universe as to form, function, origin & destiny entrusted to me helps me to

appreciate you - and makes me wish you had, what I have - for you seem so well equipped to make a splendid use of it. To find one such woman as you to help proclaim the Science of the Law - the Scientific Gospel - of the Kingdom, would make me feel - as nothing else could, that I had not lived in vain.

A great company of women are to publish it, but they ripen so slowly. that their

humble forerunner, almost
fall by the way.
I loved Anna Dickinson
as a little New England girl
hero worshipper. She struck
a chord in me when doing
her best work during Martyrs
that has been a tonic to
my aspirations ever since.
Something in me responded
to your Article as I read it
this afternoon which has
made me whirl around to
my desk & write this.
Yours in truth,
Bertha Sterling Boomer.
