

PRODUCERS AND REFINERS OIL COMPANY, LIMITED.

J. W. LEE, Chairman.
S. Y. RAMAGE, Sec'y and Treas.

GENERAL OFFICE, TITUSVILLE, PA.

Titusville, Pa., 5/6 1894

Dear Ida: This is beautiful weather we are getting now. It is bright & warm after a two days rain. & makes you feel more like being in court. than it did. I met folks yesterday & we had that for breakfast. Got up at 4³⁰ AM. & to bed at 11. PM. so don't feel any too tired today. Ella is in bed today & Jane acting as nurse. She has been feeling well for a week & guess caught cold last night & sort of used her up. Guess the visiting very serious. Winton is herself again & entertaining Aunt Nat. who goes to the farm with her Sunday. Winton expects to stay a couple of weeks I believe. Our scheme still stands as it did & the old Judge in Pittsburgh continues the injunction even after the shareholders had an order for the execution. Judge Henderson the little sucker. gave his decision last week after waiting over a month & against us. Expecta it from him though. Goes to Supreme Court now. but makes a bad delay in the business. Send you a Sunday World. This send me to A. I see a report here that the Madison people have made a deal with the Truck Refiners. Inquire about it see what it means. If you can. Our exports in W. don't seem to stick there is any trouble in the Truck. Russia & Standard trucks. Don't know whether they correspond with your man or not. Tell him to write them the situation as it stands if they have it

We had a meeting & expelled Carter from the
P.P. association last week. I notified him &
you ought to see the letter he wrote to me.
It's a curiosity. Expect there will be some
sundry noses before we get through. It's get-
ting hotter all the time & no one knows when
it will end. The people are getting to be
anarchists or something else all over this country
very fast. Suppose you have read about Coxey
& his followers. Am afraid it will make trouble
before we get through with them, as there is more
of us of menst & bad feeling everywhere. If it
was France in a way probably had a revolution.
Our oil market keeps up now 85% & but
the refined market is where it was. Think
they intend to crush out the Refiners by the
way they act if they can. The Producers is 7 1/2
I'll be an my self, & have had some pretty
hot meetings lately. Have expelled Shannon one
of the Producers Circle managers, who has been
playing traitor & making believe he was a friend.
Hope you are beginning to get ready to come home.
We are figuring on you soon this summer, and
don't want to be disappointed. Have got a new Irish
setter pup, so you can have a dog to follow you,
& you can learn the Biegdy too if you want.
Kids & all send love. Estlin is all right
again. Suppose you heard she got hurt.
Love,
Yr. etc
Will.
