

Vermontville N.H.
April 1/12

Miss Torbell

In Amth plan "Horned
Daughter" I had one feature
with the accompaniment of a good
heart ^{laugh} as it is called a family
experience. Mrs Martin - now gone
to her final rest - was a graduate of
Oberlin College a long later teaching
experience with a wonderful
success with our youngsters in
their childhood years. But never
realized that children grow to
men & women. Our youngest daugh-
ter after High School days was for
four years in College graduating
with high honors at Ann Arbor
and since marked success as a teacher.
In College experience any sub-
segment teaching attained, a ^{was named}
self reliance and unusual ~~eye~~
receptive ability. Entirely

Competent to care for her
self and mother with her.

Yr. Mrs. M - I hated Coarsened
and attempted the same Control
as when Edith was but 10. And
was at times grieved to tears
at the girls going her own way.
In our case was no irritation
or unpleasant - aftermath. And
was at each vacation a brief
experience. Pardon the intrusion.
But your mention of such conditions
revived humorous memories
Very Resp^{ly}

H. J. Marten
