My dear Miss Wolfe:

In Chapter III ("Consolidating National Communications") of Miss Tarbell's manuscript there are two or three references to the following: "Remarks of Norvin Green, President to the Board of Directors, September 13, 1882. Pamphlet printed by resolution of Board of Directors." In order to complete the citations we need to have the place and date of publication of the pamphlet and the exact page or pages from which the quotations are taken. Unfortunately this pamphlet is not in the Harvard College Library. Will you kindly supply the necessary information? *see Library*

On page 71 of Chapter III there is a reference to a Short History of the Western Union Telegraph Company. In this case also we would like to have the author, place and date of publication supplied together with the pages referred to.

In Chapter II, page 54, mention is made of Mr. H. A. Deland in Florida. Will you kindly ask Miss Tarbell for a footnote reference for this material. Did she obtain it from a book or from a personal interview? I can find no mention of Mr. Deland in Brevard's History of Florida.

Thanking you for replying to these queries, I am

Sincerely yours,

Elizabeth F. Hoyle
