

Phila 5/20/13

Dear Ida

After this I don't know where
you can buy second hand pipe, unless
of Jack Deane in Bridgeport. But
it's generally poor stuff. If you want
the same you have to get it for
approx. anything as cheap as anywhere.
I would get 1 1/2 or at least 1 1/4 pipe
for your drain, and the same for
the kitchen sink, 1" would be too
flicking at twilight you put it.

Let me know and I'll order. Ella
says that she is getting along
nicely & even had having a
quarrel at Stearns with the
d. lady but putting the house
in order. Guess she stored in
up some. I am getting along
on the side of things & keeping
in good shape. But something will
have to be done before long, and
it certainly does. I'll look stick
in now over the last report, but
expected to happen then, as not very
deep. Have a deal to do with Dickson's
to see them some more & then my
work of deal with you about matters
of mine. Got enough schemes to be a
millionaire but guess I'll take a job if
I can get one. Love
Mike
