

June 25th, 1937

Dear Mr. Bjorkman:

I am sending by this mail a copy of the map which I showed you on our Lincoln trip Monday and with it paragraphs from a rather long document which Mr. Hutchinson sent me with the map. There are two letters E and F on the map which Mr. Hutchinson did not explain. I hope these will be of some interest. It ought to be possible to establish the boundaries of the Mordecai property by the deeds which I suppose are in existence.

I am still enjoying the interesting time I had on Monday.

Thank you for your letter of this morning with the enclosures. I have received several letters offering information about the site of the Lincoln Forge. Someday it may be worthwhile following up the information these letters give.

Thank you for your ~~suggestion~~ that my sister and I lunch

with you someday in Newark and talk
over Lincoln matters with you and
Professor Hatch and others you care
to bring together. I should be most
glad to do it.

With renewed thanks for
all your kindness, believe me

Very sincerely yours

Mr. Valentine Bjorkman
