

March 25, 1927.

Mrs. Marion R. Shipley,
Harman's,
Md.

My dear Mrs. Shipley:

Thank you for your letter of March 18th with the items that it sends about the Shipley family. I cannot myself give you any data on the Shipley genealogy. I have never attempted to unravel it. I am sending your letter, however, to one of my correspondents who is doing a most exhaustive work with the Hank genealogy. I am sure she will be glad for your information and I am sure also that, if she has anything that will help you she will send it to you.

Although I am not a genealogist I am carefully filing everything that comes to me in regard to the Lincoln's, Hanks and Shipley's with the thought that someday I may have time to give attention to the matter. Therefore, if you get further information I shall be glad to add it to what you send me here.

Very sincerely yours,

IMT BKK.
