

March 11, 1927.

Mr. Lewis E. Myers, President,
The Children's Foundation,
Valparaiso, Indiana.

My dear Mr. Myers:

I have been away from New York or you would have had an earlier reply to your note of March 4th.

The National Community Foundation was organized out of the Swarthmore Chataqua Association in my absence and because my name was on the General Committee of the second organization it was transferred to the same committee of the new undertaking. I have made no objection, in fact I think there is good hope of something coming out of the undertaking. I have no literature other than has appeared in the newspapers, but I am asking Dr. Pearson, President of the Swarthmore Chataqua Association, to send you what he has and telling him that I think it might be to the advantage of you both to get in touch.

Very sincerely,

INT BKR.
