

December 2, 1933

Dear Mr. Paul:

Thank you for your pleasant note. I am going to take you at your word that you would be glad to furnish me with any further data in regard the lighting of the Chicago Fair. Now I have just received the schedule of the meetings of the Historical Society of Western Pennsylvania for 1934. On January 21st Dr. Charles Skinner of Pittsburgh is to read a paper on Lighting the World's Columbian Exposition - 1893. I would like mightily to get a copy of this paper or a reading of it. I suspect Dr. Skinner is connected with the Westinghouse so it would not be difficult to arrange this, would it? I shall be grateful for anything you can do on my behalf.

Very sincerely yours

Mr. Wesley C. Paul
