

Case 12/10' 30

Radio -

I understand from Case that the Nation is planning an attack on Young and his position on the radio. This work is carried on by Anderson. Anderson is the correspondent of the Nation, also of a St. Louis paper. He has been working as I understand it, with Senator Dill. Case thinks Dill a unreliable person. I understand that Oswald Schutte, the head of the Radio Protective Association is also working with Dill and with Wheeler of whom Case thinks well.
