Dear Mr. McClure,-

Miss Tarbell's first two chapters gave me a thrill last night not unlike her "Lincoln" gave me when I was a boy. There are some strokes of real genius in it and it is ~~a~~ most penetrating and human.

My idea now is that the cover page carry two announcements. The announcement of "Gary and Steel" by Miss Tarbell and the "Childrens Foundation" by S. S. McClure. That ought to make a lot of folks sit up and take notice. We should have the cover page of the first issue for use on a prospectus as soon as possible.

After I read those chapters last night, Park Avenue space didn't seem to me to be quite good enough for us. Is anybody down there building a crystal palace with plate-glass for pillars? If so, have Smith find out how much they will pay us to take space with them.

Faithfully yours,

LEM:S
