Miss Ida M. Tarbell,
120 East 19th Street,
New York City.

Dear Miss Tarbell:

I have not forgotten my promise about the irrigation report, but I have lately been moving my library and have not yet come across the extra copy which I am sure I must have somewhere. I was, however, able to lay my hands on Major Powell's "Lands of the Arid Region" which I have sent you by mail and as soon as opportunity offers I will try to dig out the other report and anything else which may interest you.

I am hoping that I may be able to get to New York before very long and continue our interesting conversation.

Cordially yours,

F. H. Newell
