

December 12, 1935

Dear Miss Giles:

I should like to arrange an interview with Mr. Ross on the Chrysler Institute of Engineering before I leave town next week. I take it from Mr. Ross's letter of November second that your office would arrange for the interview. Is this right?

You see I am taking it for granted that I am to go ahead with the article and arranging my schedule to go to Detroit early in January.

Kindly let me know if this is understood by Mr. Burton.

Again, I spoke to you about my Recollections. Does Mr. Burton care to read the installment which I have ready - about 56,000 words and which I think gives a fair notion of what the rest will be. If you think it would be wise to send a brief synopsis of the remaining chapters - I am planning about 90,000 words in all - I can do that.

Your office tells me you will be in tomorrow - Friday. I shall be here until about twelve thirty - Algonquin 4-6674. Will you kindly give me a ring and talk over the Chrysler matter stands and whether Mr. Burton is interested in this autobiography of mine.

Cordially yours

Miss Dorothy Giles
