My dear Mr. Bishop:

In looking over your volumes on "Roosevelt and His Time" - and let me say that it seems to me an admirably done work - I find that you say on page 34, I think, I have not my volume at hand - in quoting a letter of Roosevelt to Lodge concerning the attitude of the corporations toward him at that moment, that there are various other letters of the same tenor. I take it these are unpublished letters. Now, would it be possible for me to have a look at them? I suppose they are in your possession, or that you could tell me the most direct way to get access to them. I would be very grateful for your help in the matter.

Thanking you in advance, believe me

Very sincerely yours,
