Dear Mr. Young:

It is a heartening thing in a confused world to hear somebody speak so much sound sense in so perfect a form as you did last night in your radio talk on Over-reaching. I have been thirsting to hear somebody say just what you did.

This from an admiring ~~defender~~ who one of these days when you are not too busy would like to have a talk with you - not for publication, but for the selfish purpose of strengthening her own somewhat battered morale.

Faithfully yours
