Dear Miss Tarbell:-

We are transmitting herewith a copy of the Guide to Depositories of Manuscript Collections in Illinois, the second in the Survey's series of manuscript publications.

It will be noted that the present edition is a preliminary one. It is hoped that the final edition, when released, will completely cover all manuscript depositories in Illinois. The Survey would appreciate having its attention called to any depositories or recent accessions within depositories, omitted from the present compilation.

Acknowledgment of this volume, with criticisms and comment, may be addressed to Mr. Charles E. Miner, State Administrator, Work Projects Administration, 222 West North Bank Drive, Chicago, Illinois, or to this office.

Very truly yours,

Thomas R. Hall
State Supervisor
Illinois Historical Records Survey
