

March 9, 1939

Dear Mr. Waid:

It was very kind of you to write me your friendly letter of March 4th and to give me the data about the possible John Wilkes Booth information. I think I have most of the items but I shall check them all up with gratitude to you.

I think we all have certain recollections, as you say, of our life in Titusville. I lived there fifty years ago but have always run back whenever I had the opportunity. Titusville will always remain my old home.

I shall tell my brother when I see him of your recollections of him. He has been ill for a number of years and is living in the country near here now. Of course he keeps a lively interest in all his old acquaintances.

Thanking you again for your letter, believe me

Very sincerely yours

Mr. R. E. Waid
