Miss Ida M. Tarbell
120 E. 19th St.
New York, N. Y.

My dear Miss Tarbell:

I am sending you an accumulation of material which I hope will not seem too voluminous. If you can find a moment to look through the list of articles on "What Alumnae are Doing" taken from our alumnae magazine and check any articles which you would like to see, we should be only too happy to send them to you. I hesitate to overwhelm you with every article mentioned and furthermore I am not exactly clear in my own mind as to what "community service" is. There are such delicate shadings between matters of business or of art. So I am leaving the distinction to you.

Please do not hesitate to let us know if we can furnish anything from our office which would be of the slightest help to you. It was a great privilege to meet you the other day and to go to the Junior Prom with you. The keys to our campus are always yours.

Very cordially yours,

FHS :EH
