November 1, 1912.

Miss Ida M. Tarbel,

New York.

Dear Madam:

Your letter of October 31 is received.

We know of your work in magazines and have read some of it with interest, and shall be very glad to have you come here at any time and go over our mills and tell you about our relations with our employees; relations which we do not consider as on a philanthropic basis, yet there are, we believe, problems worked out here which are of general interest.

Yours truly,

Cheney Brothers,

HBC/R
