SAUL SINGER
VICE PRESIDENT

NEW YORK

December 9, 1926.

Dear Miss Tarbell:

To pilot you through Garment Center Capitol will be a privilege eagerly welcomed by me.

Garment Center Capitol is not Utopian but it is a harbor for many industrial visions that you have foreseen and sponsored in your writings.

If you should have a free luncheon hour on some Saturday after this week, but not too far distant, I should like to entertain you at Garment Center Capitol Club. This would give me an opportunity to discuss the housing situation with you. It will require the earnest cooperation of Publicists of your ability to stir the people of New York into a realization of the acuteness of this problem.

So, I await a telephone call, or letter, telling me as to when you can give me the honor of a visit to Garment Center Capitol. My telephone number at the bank is Longacre 2700.

With every good wish, I am,

Faithfully,

*Sincerely,
Saul Singer*
