Dr. J. V. H. Dorr
President, Technical Engineers
Bellevue Court Building
Philadelphia, Pa.

My dear Dr. Dorr:

Will you be good enough to tell me where I can get a copy of the full report made by you at the last meeting of the American Institute of Chemical Engineers - the report on Technological Advance - in which as I understand it you considered both the unemployment and the additional employment resulting from such advance.

I want it for a little article on the effects on workers of changes in machinery and process.

I would like to say that the article I have in mind is purely a popular presentation but it is my custom in doing anything of the kind to use no illustrations which have not a thoroughly scientific backing. And I know that is the case in the report which you have made to your organization.

Thanking you in advance for any help you can give me on this matter, believe me

Very truly yours
