Dear Miss Tarbell:- At last I
have come to the Home at
Ocean Grove and I am truly
very happy and no one really
knows how much I appreciate
the sense of security I have here
for the remainder of my life
with no cares or worries. It is
just like a big Hotel and
this side of Heaven I am sure
there is no better place. Some
here are not happy but I have
found some people never are
happy no matter where they
are. I am very glad to say

I truly am very happy. In sickness or health I am secure till I embark for Heaven.

About my books. You can let me know if that College will take them and where I should send ^{them}. I will ask you, if you will, to make the arrangements for me and tell me what to do. Hope they will take them at whatever figure you agree on and I will be satisfied.

A party asked me if I had written to the Duke University as they had plenty of money. Had you thought of any other college? If you think it advisable would you write to

Some other of it is not asking too
much for such a busy person as you.
I know I should not ask you to do so
much for me but you are so well known
and I do not mean a thing to them.
I am only another person of not much
account. Maybe I am taking advantage
of your goodness but I would so
like to realize something from them
for there are a few things I really do
need. However, I will just leave it
with you and I hope something will
materialize. That place you spoke of
in the South could pay me as they
could if you thought it well. But I
leave it in your hands and whatever
you can do for me I will more than
appreciate. What you have done for me
and your kind words to me I shall always
remember and what they mean to me you
can never realize -

Again thanking you and with every
good wish, I am, as always,
Your sincere friend
Anna M. Dodd

P.S. If you ever come down here
do come and see me. I should so
like to see you once more.
There are about 95 here in this Home.
