

September 13, 1932

Dear Mr. Burton:

Here is number four of our series.

Before you begin publication remember that you promised me to talk over the best way of presenting the articles. A little forward that will give a reader some sense of what it is all about and possibly connecting links between the ~~the~~ articles showing the relation.

I am off this week for Pittsburgh to make a study of the Westinghouse and Mr. Robinson which you agreed you would like to have me do if it could be fitted in. It is a pretty good example of the way one of these industrial leviathans begins and grows, civilizing itself en route. If you have any suggestions about the study please pass them on to me at this address.

When I come back I hope I may have a talk with you.

Very sincerely

Mr. Harry Payne Burton
