Dear Miss Tarbell:

I had a letter from Mr. Myers who has not been able, with all the material I furnished him, to write a prospectus. He is arriving tomorrow.

I'd like very much to see you tomorrow and to get from you data for the announcement. In one letter you spoke of the data and documents that you had examined, but did not think it was necessary to make any announcement of. It seems to me that an announcement of your sources of information in this field would be very valuable and convincing.

I read your two chapters with singular joy. It is a wonderful presentation of the great origins of our country. I realize as strongly as ever what a marvellous gift you have in presenting your material.

Faithfully yours,

Miss Ida M. Tarbell,
120 East 19th Street,
New York City.
