July 12, 1920

Miss Ida M. Tarbell,
132 E. 19th St.,
New York City.

Dear Miss Tarbell:

I have just received word from Dr. James Legrand of Alpena Pass, Arkansas, the source of information of my article on Lincoln in the Atlantic Monthly, to the effect that he is very ill with tuberculosis and probably will not live long. I think that a letter of appreciation for his contribution to his knowledge of Lincoln would mean very much to him in his last days.

Very truly yours,

Arthur E. Morgan.
