Miss Ida M. Tarbell  
120 East 19th Street  
New York, N. Y.

Dear Miss Tarbell:

I just want to tell you how much we enjoyed your visit, and how refreshing it is to know that one who has such wide contacts could come to our little town and find at least some few things of interest. Naturally your encouraging comments on what we are attempting to do represent a real inspiration to us.

Under separate cover we are sending the material which we had an opportunity to discuss. I would like particularly to comment on the "Plan for the Rehabilitation of the Unemployed," in which you expressed an interest. It has always seemed to me that with all of the ingenuity of the American people in every other field, certainly they should be sufficiently clever and resourceful to work out a plan which would be more practical and satisfactory than any of those that have been developed by other countries with almost universally disastrous results.

I am taking the liberty of including with the other material the account of your visit which appeared in our local paper. I thought you might be interested in seeing this.

I am sorry that it was not possible for you to spend more time with us.

If there are any additional data which you would like regarding any of the questions which we discussed, I shall be very glad to send them to you.

Cordially
