Dear Miss Tarbell:

I have just had an opportunity to look over the typewritten proof of your article concerning Westinghouse. It is most interesting and readable. I hope it is published as I am sure all of us will take a certain amount of pride in seeing it in print.

I hope you are well. By the way, if you are going to Arizona let me know when you are going and where, as Mrs. Robertson thinks we will get out there before Spring.

Yours very truly,

A. W. Robertson,  
Chairman
