

W. 2 Times

The intellectual & social offspring of
mechanism are the administration
shall we say simply the artificiality-
features of a machine to replace
the hand & a system to replace the
slight of the mind - an organization
to replace the adjustments of will &
& ambition - a ~~law~~ law to replace
the moral control all done for us -
Something to make our head -
run our practice - compel us to deny
at other life &

Curriculum planning - 'sergeant command'
efficiency - system like the mind =
2 - organization to carry out each
discerning mind = organization to
discern organization - beyond effort -
utterly ~~my~~ ego
those ~~but~~ independent - individual
as ~~is~~ not bid to participate - organize
to preserve independence - sharp! Serene
will cannot easily be very
