

81 IRVING PLACE  
NEW YORK CITY

Monday - Feb 28 (1938)

Dear Miss Farbill -

It is always nice to see you -  
but there is something more than that, in  
being your guest as well as your friend  
at an Allegheny Dinner. I am sure  
you know how much I like it.

I'm afraid you were tired the  
other evening. I couldn't seem to do  
anything about it without a broom,  
though, when it came to getting away.  
Any plan for attacking the  
mechanics of getting the Lincoln Collection  
together seem to be just where they were.  
I suppose I may proceed with the College  
again - in your name - as before, but this time  
with the official backing of the N.Y. Alumni  
Assoc. If this is not so, just call me  
off.

My love and thanks to you  
Edna York
