

extended trip through the South visiting  
stock farms and collecting valuable  
information. He has a vision of a  
big Stock Farm in place of the Farm  
City. Last night a Hungarian  
was asking for ten thousand acres  
on which to settle his countrymen  
who will never return to Hungary.  
So it looks like something will  
be done soon in the line of real  
progress.

With best wishes

Yours sincerely

Hugh MacRae
